	Block 16 Computer account retrieval system

Your Block 16 lab account password is not the same as your University network password. To retrieve your Block 16 computer lab account password use the following instructions:

Login to a Block 16 lab computer with the generic login details which you will find in the lab or login to one of the computers in the Library (LRC).

Using a web browser visit

<http://scm.ulster.ac.uk/>

Click on the menu items as shown below

For Current Students

Block 16 Computer account retrieval system

Enter your University network password. Use the link [Click here to retrieve your initial network password](#) if required.

It is recommended you change your Block 16 computer lab account password after logging in to the Block 16 lab PC with your lab account.
